No. 125-A-44.

OFFICE OF THE COLLECTOR,
CIVIL AND MILITARY STATION, BANGALORE.

Dated 30th March

194 4

OFFICE OF THE
COMMISSIONER
IN MYSORE, BANGALORE

- 1 APR 1944

Dialy No. 4488 The Secretary
File No. to the Hon'ble the Resident
SIR in Mysore, BANGALORE.

Cattle Disease- Outbreak of Rinderpest.

87 31/3/44

I have the honour to state that on 13-3-44 the Veterinary Superintendent reported that there was an outbreak of Rinderpest in Jeevanahally area. In order to prevent the spread of the disease preventive inoculations were given to 130 cattle in Jeevanahally and 7 cattle in Berlie Street and the total cost came to Rs.95-8-6.

I have the honour to be,
Sir,
Your most obedient servant.

DESPATCHED

S.N.5.

Please see para 3 of S.N.2 of D.Dis.495-38. This instruction was issued in connection with the budget for 1938-39. No provision has been made for Rinderpest inoculations in the budget for 1939-40 either; but as the expenditure appears to be unavoidable, there seems to be no objection to the Collector incurring it without a reference to this Residency. He may however be asked to send a statement of expenditure at the end of every month to enable us to watch the progress of expenditure during the current year. Draft submitted.

SIR,

Rinderpest - outbreak of - Ulsoor village
preventive inoculations - sanction requested.

Several cases of rinderpest, two of them fatal,
are reported from Ulsoor. The Veterinary Superintendent
in consultation with the Municipal Health Officer -
recommends that all the cattle in that village should
be inoculated immediately. The total number to be -
inoculated is 300 and the cost of inoculation comes to
Rs.150/-.

In view of the urgency, I have authorised the
Vety. Superintendent to proceed with the inoculations
in anticipation of sanction, and request that the -
expenditure of Rs.150/- may be authorised.

I have the honour to be,
Sir,
Your most obedient servant,

C.F.V. Williams

FROM

H.H. Carleston, Esq., I.C.S.,

COLLECTOR, CIVIL AND MILITARY STATION,
BANGALORE.

The Secretary to the Hon'ble the Resident in Mysore,
Bangalore.

Rinderpest in the Station - investigation
and suppression of - conveyance allowance
to the Veterinary Superintendent - requesting
sanction.

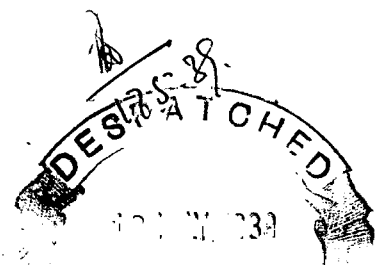

Since January 1939 preventive measures were
necessitated by an outbreak of rinderpest in the
Station and a number of animals were inoculated.
The Veterinary Superintendent performed a number of
journeys in his car on inoculation work and submitted
a bill for Rs.29-10-0 (copy enclosed). On verifi-
cation it was found that he actually travelled a
distance of 113 miles. I recommend that sanction
may be accorded under Supplementary Rule 89 for payment
of a sum of Rs.21-3-0.

I have the honour to be,

- - -

I enclose herein the letter received from Domlur
regarding the outbreak of rinderpest among cattle. I am
starting preventive inoculations in Dommalar to-morrow
morning alone to check the spread of the disease. It is not
possible to say what exact number that will have to be
inoculated at present. In any case, I am arranging to
inoculate at least 50 cattle that may have been in contact
to-morrow morning, for which purpose, I have ordered 50
doses of goat-virus from the Serum Institute, Hebbal. I
request you to kindly accord sanction for the purchase of
necessary virus and I will inform the actual cost of the
serum etc., when done with.

I am now proceeding to Domlur with the Health Officer
to make necessary arrangements as regards segregation etc.

11 MAY 1943

SIR,

Yesterday at the request of the Hon'ble the Resident I visited the stables at the Residency at 9-15 A.M. and found the horse belonging to the Mysore Lancers with acute colicky pains stretched and lying flat in the stable. The temperature was subnormal and no other symptoms could be noticed. Palliative remedies were given to relieve the acute pain. The animal died at about 10 A.M. and the blood smears from the ear and muffle were taken for examination suspecting for Anthrax. In consultation with the Vet. attached to the Mysore Lancers the blood was examined at the Serum Institute Laboratory and found it positive for Anthrax and the carcass of the horse was buried deep with lime. The other two ponies were protected with Anti-Anthrax Serum. The Vaccine is being indented for as the immunity of the Serum is only for a fortnight. The ponies may be fed only on hay. The stables have been disinfected and the litter burnt.

I have the honour to be,
